

Non-Insurance Financial Options for Services

For patients who have Medicaid or a community health plan, have a private insurance plan that is an HMO, without out-of-network benefits, or do not have any insurance plan in place, we offer prompt-pay discounts and three year payment plans, in order to make our care more financially accessible.

Obstetrics Care: All-Inclusive Care, including all Wellness Services (Includes Pregnancy care, in-office ultrasounds, Labor, Delivery, and Postpartum care, Doula for labor and delivery, childbirth and lactation education, lactation and maternal mental health counseling, prenatal yoga)

Payment Plan:

Monthly payments of \$208 for 36 months, starting at 12 weeks gestation

Payments are billed on the 1st day of each month and due by the 15th.

* A \$20 service fee is applied to each monthly payment and there is no prepayment penalty. Late payments will incur an additional service fee of \$25.

Accounts past due by more than three months will be excused from the practice.

Prompt-pay Discount:

Patients may elect to self-pay for their obstetrics care prior to delivery, by 32 weeks, and receive a 30% discount on services, for a total of \$5,250. Patients electing this payment option will be billed monthly, starting at 12 weeks, for a total of 5 payments of \$1,050. No service fee will be applied.

Birthing Center Facility Fees:

Utilizing the Wombkeepers Birthing Center for delivery is billed separately from your obstetrics care, in the same way a hospital bills separately for their services when patients give birth in their facility.

We also offer a prompt pay discount for the facility fee for our birthing center for \$5250 or a combined practice and birthing center facility fee of \$10,000 if paid by 32 weeks.

We offer payment plans for our facility fee based on our patients' financial needs and do our best to ensure that all patients who wish to deliver in the birthing center are able to do so.

Gynecologic Services

Gynecologic fees are due at the time of service.

We charge \$300 for Integrative Gynecology and Preconception Consults.

\$150 for all routine visits, annual exams, IUD's for established patients.
